Camera Link®

Imperx: C1921

The CLF-C1921 camera features the Sony Pregius IMX421 Global Shutter CMOS sensor with a native resolution of 1944 x 1472 in a 2/3" optical format delivering up to 174 frames per second with Camera Link® Full Power over Camera Link (PoCL®) output. The Sony Pregius image sensor delivers outstanding sensitivity and excellent image quality. Imperx puts you in control by providing full access to raw data without corrections. Using the simple intuitive graphical user interface, you can quickly apply image corrections, if desired. The C1921's flexibility, image quality, and speed make it suitable for a broad range of diverse and demanding applications, but "one size doesn't fit all," and Imperx can help optimize the camera to your exact requirements.
